

PRESENTS

Low-waste gift ideas for your next birthday party

1

Pre-loved

Ask friends to give something second-hand.

2

Toy swap

Guests bring a wrapped toy to swap - everyone gets something to take home.

3

Money

So you can save towards a thing or experience you really want.

4

Group gift

Ask people to club together to get you one bigger gift (instead of lots of little bits).

5

Donation

Ask for donations towards a charity or cause you care about.

Would you do any of these?
